Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
3. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.
4. Group I, claim(s) 1-12 and 19, drawn to transfer paper.
5. Group II, claim(s) 13-15 and 20, drawn to method of making.
6. Group III, claim(s) 16-18 and 21, drawn to method of using.
7. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Where a group of inventions is claimed in an application, the requirement of unity of invention shall be fulfilled only when there is a *special technical relationship* among those inventions involving one or more of the same or corresponding technical features which define a contribution over the prior art. See 37 CFR 1.475. The special technical feature of the present invention --a porous barrier layer provided on a paper--does not define a contribution over the prior art, as is revealed by Owatari et al. (US 5,928,787) in (col. 9, lines 30-67). Consequently, a lack of unity of invention exists. See 37 CFR 1.475 and MPEP 1850.

Art Unit: 1774

8. A telephone call was made to Charles L. Gagnebin III on 06/18/2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

9. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

10. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
